

TAKEOVER

FRAGILITY

THE TENT

Putney Bridge

We want your show to be the best it can and this means technically as well as what happens on stage. To this end we are offering technical support for your shows.

We provide, for free, a number of lights which will be 1x spotlight, 2x Fresnel for warm and cold wash and 1 x LED light for colour.

Sound will be 2 x 15" speakers and we will have a 3.5mm jack cable to connect phones/laptops etc.. and up to two microphones.

We charge £20 per show for a technician booked in advance, this can be paid out of your settlement or in advance.

If you suddenly get to your tech and decide you need a technician this will be more expensive at £35. Cut off Line for this is 7 Days Before the fringe starts.

To book your technician, you will need to email your request to charlie@fragility.co.uk stating the name of your show clearly in the subject of the email.

If you do not pay for a technician you can still have a single lighting state that will go up once the show starts and the house lights go off. This will remain up through the show and will be brought down again at the end and the house lights put up whilst the audience leave.

Alternatively you may bring your own technician to operate the equipment.

Some other details about the venue:- There will be little to no storage space and also no planned backstage area. The Stage will be 16ftx8ft The Tent is 8M x 5M

Here's a plan of the space -
